

## Summary

Seasoned software developer with **8 years** of experience developing scalable and user-friendly web applications. Seeking an opportunity where I can contribute my expertise in full-stack development to cutting-edge projects.

## Employment History

- 2020-01 to Present
- FULL STACK DEVELOPER**  
Posten.no (Oslo, Norway)
    - Developed and maintained **scalable web applications** using Java/Kotlin, React, MYSQL and Spring Boot.
    - Collaborated with **cross-functional teams** to gather requirements and implement those new features from Trello and Figma.
    - Implemented RESTful APIs to facilitate seamless communication between frontend(**Android/iOS/Web**) and backend systems.
    - Actively participated in the **Agile development** process, attending daily stand-ups and sprint planning meetings.
- 2017-04 to 2019-12
- JAVA & WEB DEVELOPER**  
Ultimatix.net (Hyderabad, India)
    - Contributed to the development of **mission-critical** annual compensation platform using Java, Spring MVC, Hibernate, PL/SQL and AngularJS.
    - Worked on **database design and schema optimization** for improved data retrieval and storage.
    - Implemented automated test scripts using Junit, resulting in a **30% decrease** in production defects.
    - Conducted code reviews and **provided mentorship** to junior developers.
- 2016-04 to 2017-04
- JAVA TRAINEE**  
Mercer.com – Tcs.com (Nagpur, India)
    - Developed and maintained the backend of **Health Insurance platform** using core Java, MYSQL and SFTP mechanism.
    - Implemented security measures, including **encryption and authentication mechanisms**, to protect user data.
    - Resolved complex technical issues, provided technical support, and achieved **100% customer satisfaction**.
